Road Safety Tips and Outback Etiquette

- ▶ Make sure your vehicle is well prepared. Include at least one spare tyre. In the event of a breakdown, stay near your vehicle. Carry adequate fuel, food and water.
- ▶ Drive to conditions. Keep to, or below, the speed limit & slow down on dirt and gravel roads when your vision is obscured by the sun or dust.
- ▶ Dust from other vehicles, especially oncoming vehicles, can obscure hazards.
- ▶ Avoid travelling at dawn, dusk and at night as wildlife and stock wander.
- ▶ Observe RTA and local council advisory signs and notices concerning road closures.
- ▶ Rain may cause the closure of unsealed roads.
- ▶ Care for the environment and take your rubbish with you.
- ▶ Don't use firearms or bring pets onto properties without specific permission... valuable livestock, property and human life could be at stake.
- ▶ Leave gates as you find them... If the gate is closed then close it behind you, if it is open leave it open.
- ▶ Random access through private property is not permissible.
- ▶ Take regular breaks from driving and share the driving whenever possible. Stop, Revive and Survive.
